

REYYI SHREYAS

Machine Learning Engineer | AIML Undergraduate

Bangalore|reyyishreyas@gmail.com | GitHub | LinkedIn

Artificial Intelligence and Machine Learning undergraduate with hands-on experience developing machine learning models, deep learning systems, and full stack AI applications. Skilled in Python, Scikit-learn, TensorFlow, and PyTorch. Experienced in building end to end AI solutions including autonomous simulations, recommendation systems, and intelligent automation platforms.

EDUCATION

Kendriya Vidyalaya

Class XII - PCM with Computer Science

Grade:- 1st class

2012 - 2024

BMS Institute Of Technology And Management

Artificial Intelligence and Machine Learning (B.E)

CGPA 9 .08

2024 - 2028

SKILLS

Programming Languages:	Python,C,C++
Machine Learning:	Scikit-learn, XGBoost, Random Forest, Regression, Classification, Ensemble Learning, Feature Engineering, Model Evaluation
Deep Learning:	TensorFlow, PyTorch, LSTM, GRU, Neural Networks
Libraries:	NumPy, Pandas, Matplotlib, Seaborn
Backend:	Flask
Tools:	Git, GitHub, VS Code, Jupyter Notebook, Google Colab
Database:	MySQL

Experience

Launched Global

Aug 2025 - Dec 2025

- Developed ML workflows involving data preprocessing, feature engineering, model training, and evaluation.
- Implemented supervised learning algorithms using Python, Scikit-learn, and data analysis libraries.
- Developed **SalaryPredict AI**, an end-to-end ML application involving regression modelling, model comparison, and deployment.
- Built complete pipeline from dataset preparation to model inference.
- Certificate Link:** Certificate

Leadership Experience

ASTRA (Armed Squad for Tactical Readiness and Awareness)

Sep 2025 - Present

Technical Head

- Lead technical planning and execution of defence technology projects.
- Coordinate project development, technical decisions, and engineering workflows.
- Organising technical learning sessions for team members on development tools, technologies, and collaborative workflows.
- Organise technical sessions on Git, development tools, and AI technologies.
- Contributed to planning and technical execution of ASTRA Defence Tech Expo.

Projects

AI-Based Aerial Trajectory Prediction|GitHub

- Developed a deep learning-based simulation system for aerial trajectory prediction using LSTM and GRU models.
- Built an end to end pipeline including data generation, preprocessing, model training, trajectory forecasting, and visualisation.
- Independently designed and integrated AI models with a simulation environment for autonomous decision support.

ChessMind AI - Adaptive Chess Intelligence System | GitHub

- Developed an adaptive chess engine that dynamically adjusts difficulty based on player performance.
- Generated and engineered a custom dataset of 100,000+ gameplay samples using Stockfish evaluation metrics and gameplay features.
- Trained supervised ML models (Random Forest, XGBoost, etc.) and integrated Stockfish analysis with dynamic Elo adjustment.

TRICP - Telecom Retention Intelligence & Churn Predictor |GitHub

- Built a full-stack ML platform for telecom customer churn prediction and retention automation.
- Developed an ensemble ML pipeline using XGBoost, LightGBM, Gradient Boosting, Random Forest, and Logistic Regression.
- Implemented automated retention workflows that trigger personalised emails for high-risk customers based on churn-driving factors.

SalaryPredict AI - ML-Based Salary Prediction Platform |GitHub

- Developed an end-to-end ML application to predict salary expectations using candidate profile features.
- Trained and compared regression models including XGBoost, Gradient Boosting, Random Forest, and ensemble methods.
- Built a Flask-based application with prediction, analytics dashboard, and fairness analysis modules.

Smart Fixture - Tournament Management System |GitHub

- Developed a full stack tournament management system for automated fixture generation and match scheduling.
- Implemented algorithms for bracket generation, player conflict handling, court allocation, and scheduling optimisation.
- Built secure match-code based score verification and automated winner progression workflow.

CERTIFICATIONS

- AWS Certified Machine Learning - Specialty - **LinkedIn Learning**
- Operationalizing AI Governance: Strategy and Foundations - **LinkedIn Learning**

Areas of Interest

- Machine Learning Engineering, Deep Learning, Autonomous Systems, Defence Technology, AI Applications

HONORS & AWARDS

- **Recommended for Indian Army Technical Entry Scheme (TES)** through SSB selection process: TES-52 (August 2024): **All India Rank 101**
- **Recommended for Indian Army Technical Entry Scheme (TES)** through SSB selection process:TES-53 (February 2025): **All India Rank 24**
- **Recommended for National Defence Academy (NDA)** selection process: NDA-156 (January 2026): **All India Rank 348**
- Awarded a Letter of Appreciation from **Launched Global** by **Utkarsh Singh Yadav (Senior HR Manager)** for successfully completing Machine Learning internship and outstanding project contribution.
- Secured 1st Place in Launched Global ML Expo by presenting SalaryPredict AI.
- Secured 4th Place (Consolation Prize) in IEEE Winter of Projects by presenting ChessMind AI.
